Our Light weight Motivi range helps create an RV interior that is both luxurious and also a home away from home.

Our Light Weight and high strength plywoods are perfect for caravan and RV fitouts. This elite range is the latest in European trends. The Nikpol RV decorative range of Light Weight Plywood is a blend of acrylic surface and textured woodgrains that when combined inspire a luxury RV space.

Our acrylic lustre gloss finishes are easy to clean and are abrasive resistant, our Renolit deep textured woodgrains complement our gloss acrylic range harmoniously.

Characteristics

- Lightweight plywood 5.27kg m2/kg, full sheet 15.7kgs
- Flat and stable
- 7 ply construction
- E1 rating
- High strength to weight ratio
- Moisture resistant
- Acrylic surface gloss > 85
- Acrylic surface with abrasive resistance
- Acrylic surface with chemical resistance
- UV stable acrylic surface
- Easy to clean
- Matching ABS edge
- Available in 2440L x 1220W mm x 16mm
- Interior use only

Sustainability

- Albasia Falcata is a light weight 100% plantation grown timber
- Ecologically and environmentally preferable
- Carbon sequestration is about 30kg per tree per year
